ICEARS-107	GPS BASED LPG LEAKAGE NOTIFICATION SYSTEM	C. Nandagopal, Dinesh S, Gobikrishnan A, Gopinath M

Dear Author,

Greetings from ICEARS 2026!!

The Organizing Committee is pleased to inform you that the above peer-reviewed & refereed conference paper has been accepted for presentation at the **4th International Conference on Electronics and Renewable Systems (ICEARS 2026)** organized by St. Mother Theresa Engineering College, Thoothukudi, India on 11-13, February 2026.

In this regard, we appreciate if you could send the final paper, IEEE Copyright Form and Payment proof to the conference at the earliest, to ensure a timely publication of your research paper. When submitting your final paper, please highlight the changes made to the research paper according to the specified reviewer comments.

With Thanks,
Yours' Sincerely

Conference Chair
Prof. A. George Klinton
ICEARS 2026

Review Comments :

1. There is no quantitative analysis conducted. It needs performance comparisons quantitatively.
2. Which gas sensor is used in the proposed system to detect LPG leakage?
3. Which component provides the real-time location of the leakage in this system?
4. How does the system operate even when the user is far from the leakage location?
5. What limitations are mentioned related to environmental conditions affecting detection accuracy?
